SAFETY ZONE LIGHTING
FROM GROTE

WARNING & HAZARD

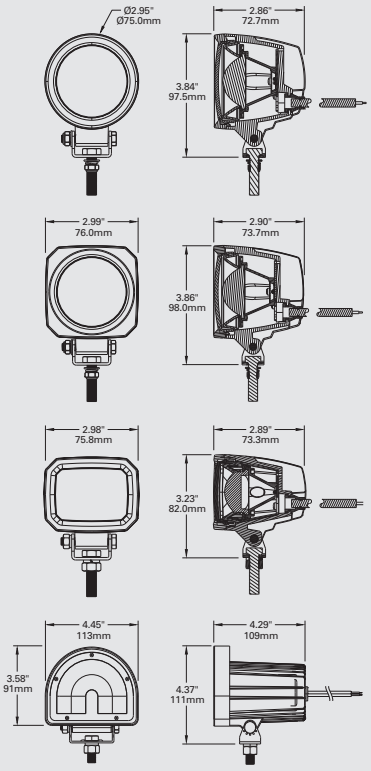

DURABLE CONSTRUCTION

EASY INSTALLATION

COMPACT SIZE

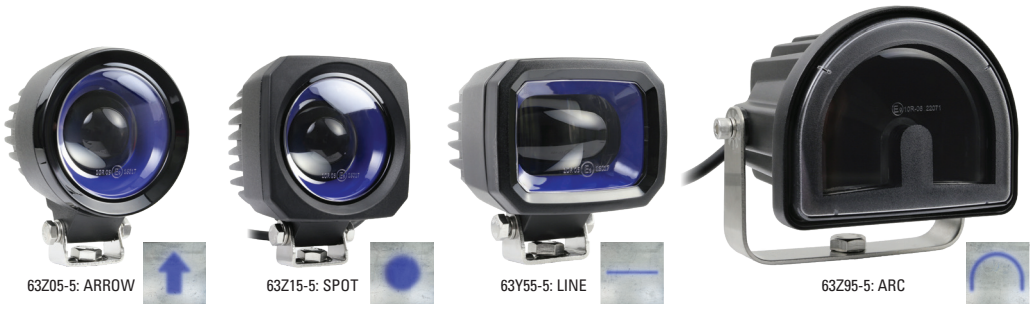

12–80V
WIDE OPERATING RANGE

VOLTAGE: 12–80 VDC
OPERATING TEMPERATURE:
-40°C (-40°F) TO +60°C (+140°F)
MATERIALS: ALUMINUM/POLYCARBONATE
APPROVALS: ECE R10, IP67, IP69K

GROTE SAFETY ZONE LIGHTING—SAFETY YOU CAN SEE

Add a highly visible layer of protection around forklifts and other mobile equipment with bright blue projected boundary lines, putting a clear visual warning directly where pedestrians need it—on the floor. Designed to improve awareness around blind corners, busy work areas and pedestrian traffic, these lights help operators and pedestrians recognize potential hazards sooner and safely navigate shared spaces.

63Z05-5: ARROW | 63Z15-5: SPOT | 63Y55-5: LINE | 63Z95-5: ARC

FEATURES & BENEFITS

- **Projects safety where it matters:** bright blue warning patterns put a highly visible safety signal directly on the floor, where pedestrians are more likely to see it
- **Helps reduce collision risks:** creates an additional visual warning around mobile equipment, helping pedestrians recognize approaching equipment and maintain a safer distance
- **Four warning patterns:** choose the projection that fits the application: Arrow, Spot, Line or Arc
- **Ideal for blind corners:** provides an additional layer of visibility around warehouse racking, corners and other areas where pedestrians may not see approaching equipment
- **12–80 VDC:** one versatile voltage range accommodates a wide variety of material-handling equipment
- **Simple two-wire installation:** straightforward wiring and included mounting hardware make installation fast and uncomplicated
- **Built for industrial environments:** durable construction stands up to demanding material-handling applications
- **Retail-ready packaging:** complete with mounting hardware, making it easy to stock, sell and install

PART #	DESCRIPTION	AMP DRAW	MOUNTING	BEAM PATTERN	COLOR
63Z05-5	SAFETY ZONE LIGHTING	0.4A @ 12VDC	PERMANENT	ARROW	BLUE
63Z15-5	SAFETY ZONE LIGHTING	0.23A @ 12VDC	PERMANENT	SPOT	BLUE
63Y55-5	SAFETY ZONE LIGHTING	0.59A @ 12VDC	PERMANENT	LINE	BLUE
63Z95-5	SAFETY ZONE LIGHTING	0.89A @ 12VDC	PERMANENT	ARC	BLUE

SAFETY ZONE LIGHTING
FROM GROTE

WARNING & HAZARD

63Z05-5: ARROW SAFETY WORK LAMP
Projects a moving blue arrow to signal approaching equipment and direction of travel.

63Z15-5: SPOT SAFETY WORK LAMP
Projects a concentrated blue warning spot to create a highly visible pedestrian alert.

63Y55-5: LINE SAFETY WORK LAMP
Projects a blue safety line along the vehicle to establish a visible separation zone.

63Z95-5: ARC SAFETY WORK LAMP
Projects a wide 180° blue arc around the vehicle for enhanced perimeter visibility.

Illustrations for reference only. Actual light output and beam pattern may vary.
