POWER AND DURABILITY FOR TODAY'S EQUIPMENT

Grote's new USB Power Delivery Sockets provide fast, reliable charging for commercial, automotive, marine, and work-vehicle applications. With true PD capability, operators can power more than phones—these sockets support laptops, diagnostic tools, GPS and telematics units, drones, thermal inspection devices, and other mission-critical equipment.

The series installs easily into dashboards, consoles, and control panels, delivering high output, a wide operating-temperature range, and durable quick-connect terminals for simple, secure installation.

FEATURES & BENEFITS

- Power Delivery (PD) fast charging supports laptops, diagnostic tools, and other high-draw devices
- Dual-port configurations (USB-C or USB-A + C) charge two devices simultaneously
- Compatible with 12V and 24V electrical systems for universal fleet installation
- Round or rectangular mounting options fit standard industry cutouts, and our surface-mount bracket option (83-6574) enables installations with minimal drilling
- Wide operating-temperature ranges for harsh-environment performance
- Compact design simplifies integration into modern dashboards and panels

PART #	DESCRIPTION
83-6571	DUAL USB SOCKET, 2 X TYPE C, POWER DELIVERY, ROUND, 12/24V
83-6572	DUAL USB SOCKET, TYPE A + C, POWER DELIVERY, RECTANGLE, 12/24V
83-6573	DUAL USB SOCKET, TYPE A + C, POWER DELIVERY, ROUND, 12/24V
83-6574	SOCKET QUICK-MOUNT BRACKET, ABS, SURFACE MOUNT, BLACK
