S-LINK™  
CAPABLE

S-Link System is a proprietary technology that will allow similar S-Link products to be synchronized. This would allow for a user to define the flash patterns on multiple devices for a customized, tailored look on a vehicle.

*Note: Only S-Link compatible products can be synchronized together. Refer to user installation manuals for details on S-Link Synchronization.*

## COMPACT SIZE THAT PACKS A BIG PUNCH

Grote's Square LED Minibars are the smallest minibar that Grote offers, but with 12 customer selectable flash patterns and S-Link™ capabilities they are big on features and capabilities.

## FEATURES & BENEFITS

- With four bright LED heads producing 360° output, this powerful unit is also the smallest Minibar Grote offers
- 12 customer selectable flash patterns plus steady-on, and the permanent mount version offers two phases of output, high or low
- S-Link 2.0 System™ offers synchronizing capabilities with other Grote LED S-Link units
- Available in permanent mount option and a vacuum/magnet mount with pattern select switch and 11' power cord
- All models are rated to SAE Class I to provide optimum safety for your vehicles and equipment
